streamSAVE is a 36-month Horizon 2020 project aiming to streamline energy savings calculations under Articles 3 and 7 of the Energy Efficiency Directive (EED). For more details, see: www.streamsave.eu

What is a Dialogue Group?

A Dialogue Group gathers experts and policy officers from various EU Member States to share experience and discuss technical and economic issues related to the savings calculations for a given Priority Action. The streamSAVE team facilitates the exchanges by organising web-meetings, providing an online forum and summarizing the main lessons learnt from the discussions.

What do I get from taking part in a group?

- Better knowledge about technical and economic issues related to savings calculations, and about practices in other countries
- Peers' and experts' support to answer my questions
- Opportunity to give my views on the methods developed by the streamSAVE project

What involvement is expected from me?

- Taking part in Priority Action specific online web-meetings
- Using the online forum to ask questions or share information with my peers
- Making a presentation to share experience (on a voluntary basis)

The 5 Priority Actions addressed in the second cycle of Dialogue Groups
