

## streamSAVE final Dialogue meeting

# 'More energy savings? Yes, we can!'

**Wednesday 17 May 2023 (14:00 – 15:15 CEST) – Online ([registration link](#))**

[streamSAVE](#) is a 36-month Horizon 2020 project aiming to streamline energy savings calculations under Articles 3 and 7 of the Energy Efficiency Directive (EED). The Dialogue meetings gathered experts and policy officers from various EU Member States to share experience and discuss technical and economic issues related to the savings calculations for Priority Actions, selected based on stakeholders' needs.

This final Dialogue meeting will summarize what we learnt from these exchanges and look forward by discussing further types of energy saving actions in view of new energy savings targets.
